MEMORANDUM FOR: Deputy Director for Administration

SUBJECT : Security of Documents Developed Relative
to the Charge of Illegal Activities on
the Part of the Agency

1. From my involvement in this particular project I have become concerned with the security of the documents which have been developed in connection with this particular project. I am concerned that in view of the "crash requirements" involved, a lack of care in the handling of these documents has developed. I am further concerned that the inadvertent release of the information contained in these documents to unauthorized sources, either inside or outside the Agency, could cause irreparable damage to the Agency.

2. In view of the above, I recommend first of all that all personnel involved in this project be reminded of the sensitivity of the documents and urged to give their security their closest attention. Secondly, I would urge personnel involved in the project not to duplicate these documents unnecessarily. Finally, I would urge all personnel involved to return these documents to the proper authority, i.e., either the IG or Office of Security, whenever they are no longer needed.

3. I intend to so inform personnel in the Office of Security. I recommend that you possibly take this up with Mr. Knoche, who might be in the best position to relay the information to individuals supporting the project.
